Art Unit: 2811

1. Claim 15 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Fig. 5 shows an M cell having a gate stripe 523 whose width is "i" and a body stripe 524 whose width is "j" (second cell design), where "i" and "j" may be different from the "g" and "h" dimensions of cell A (Fig. 4) (third cell design), respectively. The current density in the A and M cells will differ by virtue of the differences in the stripe dimensions (page 12, lines 1-5). However, the specification never discloses said first cell design differs from said second cell design with respect to pitch of gate stripes of each cell design as claimed in claim 15.

2. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17, lines 16-18, the phrase "the operational current density of third active cells fabricated according to said third cell design is greater than that of said second active cells under the same biasing condition" is unclear as to what biasing condition is it being referred to. Is it being referred to the voltages applied to different areas of the second and third active cells? In addition, in line 18, the phrase "said second active cells" is unclear whether it is being referred to "said second active cells fabricated according to said second cell design".

3. Claims 1-14 are allowed.
4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
